

Source List_Battle Axe Design Demo

Category	Asset Name	Source	URL	Processing	Notes
Weapons	Impact_Core	Mixkit		EQ Eight: Lift the shared frequency at 100 Hz and suppress a bit the highs to thicken the sound. Fine-tuned fades to tighten the sound.	
	Impact_Air	Mixkit		EQ Eight: Concentrate the frequencies between around 100 Hz and 1kHz. Tailoring transients with fades to increase punch and focus.	
	Metal Body	Pixabay		EQ Eight: Down the highs. Tightening layers with fades for cleaner impact.	
	Ring	Mixkit		Tightening layers with fades to define signature textures.	
	Whoosh	Pixabay		Pitch Automation: Simulate the accelerated speed of air. Fine-tuned fades to tighten the sound.	
	Axe	Mixkit		EQ Eight: Mid-high cut for tonal shaping and tighter focus.	
	Sword_Block	Mixkit		Tightening duration with fades for a more focused sound.	
	Sword_Crash	Pixabay		Tightening duration with fades for a more focused sound.	
	Handle	GDC Game Audio Bundle		Tightening layers with fades for a more focused and cleaner impact.	
Foley	Armour	Soundly Free		Tailoring transients with fades to increase punch and focus.	
	Blood	Pixabay		EQ Eight: Boosting sub-frequencies for a more visceral, thick blood texture. Tightening duration with fades for a more focused sound.
